

INVESTMENT PHILOSOPHY, OBJECTIVE & STRATEGY

Investment Philosophy:

The Investment Adviser will follow its long-term, value investment philosophy and strategy employing a proprietary, team driven bottom-up process for portfolio construction. The portfolio will be actively built and monitored while avoiding excessive churning.

Investment Objective:

The investment objective of the Q India Equity Fund (the "Fund") is to achieve long-term capital appreciation by investing in the listed equities of Indian companies that are in a position to benefit from the anticipated growth and development of the Indian economy.

Investment Strategy:

Investors assume increased risk when investing in India. The Investment Adviser believes that its job is to analyze, attempt to control and monitor that risk, not enhance it. Risk is not only standard deviation, market movements and volatility. The Investment Adviser believes the risk also encompasses underlying liquidity, governance and valuations.

Integrity Screen:

The Investment Adviser uses a proprietary governance framework to manage risk and to generally avoid investment in companies, which in the opinion of the Investment Adviser, may have:

- a record of poor treatment of minority shareholders;
- blatantly violated rules and regulations;
- acquired national properties from government through questionable means;
- adopted questionable accounting practices;
- unidentified founders, opaque shareholding structures or non-Independent Boards;
- weak business models;
- adopted other questionable or opaque practices.

Valuation Driven

After filtering for liquidity and governance, the Investment Adviser generally buys a security at a discount to what it believes is the intrinsic value of the security.

Under normal circumstances, the Fund will invest at least 80% of its net assets in equity securities of Indian issuers. The Fund can hold cash when the Investment Adviser does not see value.

Please refer to the Prospectus for complete detail of Investment strategy.

There is no guarantee that the investment strategy will achieve its objectives, generate profits or avoid losses.

FUND FACTS – Q INDIA EQUITY FUND

Class	Class I	Class II	Investor Class

Ticker	QINIX	QINSX	QINRX

The Inception Date of Q India Equity Fund is 06th January 2025.

INVESTMENT CRITERIA IN SUMMARY

Sensible* and Risk Adjusted Returns

Liquidity Filter	Buying stocks which trade on average above US\$ 1 million** results in high portfolio liquidity and seeks to ensure that the Fund has the ability to enter/exit stocks with ease
Integrity Screen	A proprietary governance framework introduced in 1996 and refined over time with the goal of sifting out bad management, regardless of how large these companies may be in the index, their profitability or their valuations. (Please refer the explanation on the left)
Valuation Driven	A team driven disciplined process to identify and buy stocks which are available at a discount to Intrinsic Value (such as PER, PCF, PBV) and to trim/exit stocks as they trade above Intrinsic Value

*Sensible Returns - Seeks to generate equity returns in line with the long-term history of the strategy without taking undue liquidity and governance risk

**The security has an average daily trading value of USD 1 million over the past 12 months.

Abbreviation: PER - The price-to-earnings ratio measures a company's share price relative to its earnings per share.

PCF - The price-to-cash flow ratio is a stock valuation indicator or multiple that measures the value of a stock's price relative to its operating cash flow per share.

PBV - The price-to-book value (P/BV) ratio measures the company's share price relative to its book value per share.

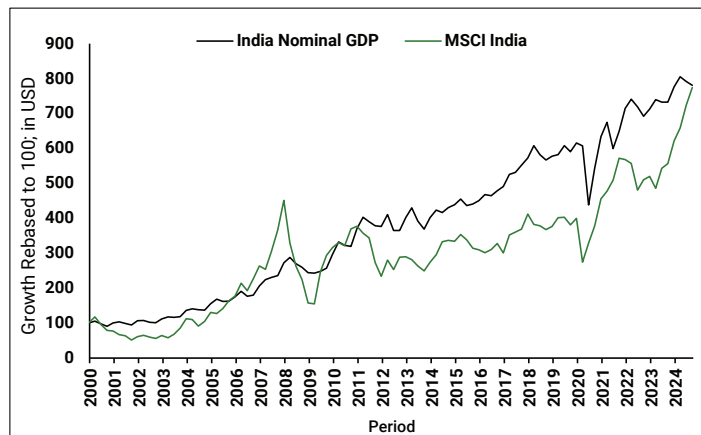

**The Fund's Adviser, Quantum Advisors Private Limited (the "Adviser") has contractually agreed to waive its management fee and/or reimburse the Fund's other expenses in order to limit the Fund's total annual operating expenses (inclusive of 12b-1 distribution fees) to 0.98%, 0.75%, and 1.23% of the average daily net assets of the Fund's Class I, Class II, and Investor Class shares, respectively, through January 31, 2026 (excluding investment-related costs; taxes; borrowing costs; acquired fund fees and expenses; any administrative and/or shareholder servicing fees; expenses incurred in connection with any merger or reorganization and extraordinary expenses). For details, please refer the Prospectus. The Operating Expense Limitation Agreement may only be terminated during its term by the Board of Trustees.

ABOUT QUANTUM ADVISORS PRIVATE LIMITED (INVESTMENT ADVISER) - PIONEERS OF INVESTING IN INDIA

- ▶ India's first institutional equity research house, founded by Ajit Dayal in January 1990 - 18 months before the first significant economic reforms in July 1991.
- ▶ Partnered the first Foreign Institutional Investors in India: Jardine Fleming (1992-1995), Walden Nikko (1996-1999), Prolific (1996-1999) and Hansberger Global Investors (1997-2004)
- ▶ Over 30 years of India experience, including 7 years of value investing globally - in partnership with Tom Hansberger, the co-founder of Templeton, Galbraith, & Hansberger.
- ▶ Built on principles: Value, Integrity, Transparency.
- ▶ Ajit Dayal (Founder) and I V Subramaniam (Subbu – Group Head Equities) introduced the Integrity Screen in 1996 and are amongst the longest serving equity portfolio managers from India. (see page 2 for profile of the portfolio managers)
- ▶ Registered in India as a Portfolio Manager with Securities and Exchange Board of India (SEBI), India wide registration number INP000000187. Also registered with the U.S., Securities and Exchange Commission (SEC) as an Investment Adviser and as a Restricted Portfolio Manager with the Canadian Provinces of British Columbia (BCSC), Ontario (OSC), and Quebec (AMF). (Note - Not registered with any other regulator. Registration with the above regulators does not imply any level of skill or training).

INDIA IS AN ATTRACTIVE LONG-TERM GROWTH MARKET AND DESERVES A DEDICATED ALLOCATION

- ▶ India began to open up its economy in the 1980s, with significant reforms in 1991, leading to increased economic activity and growth rates. Since 2000, India's real GDP growth has averaged approximately 6.2% per annum (INR). This real GDP growth since 2000 has led to double-digit growth in nominal GDP, with a CAGR of 11.6% (in INR) and 8.7% (in USD). This growth is reflected in the Indian stock market returns, as represented by the MSCI India Index[#], with a CAGR of 11.5% (in INR) and 8.6% (in USD). All data is up to September 2024.⁽¹⁾⁽²⁾
- ▶ The Investment Adviser believes that India's democracy, rule of law, economic structure, and private sector ingenuity combine to help the Indian stock market returns closely track the growth in nominal GDP.
- ▶ India remains one of the fastest-growing economies globally. Nominal GDP is projected to grow from USD 2,485 billion in 2023 to a USD 26 trillion economy by 2048, with an approximately sixfold increase in per capita GDP to USD 15,000.⁽³⁾
- ▶ India is a diverse economy with a wide mix of industries and sectors, including manufacturing, agriculture, and services like IT, that have evolved over the years. The stock market indices have reflected these changes in the economy⁽⁴⁾.
- ▶ The median age in India is 28, with roughly 64% of the population considered working age⁽⁵⁾. This demographic will boost potential income, spending and savings over the coming years. Retail investors in India are increasingly investing in direct equities and mutual funds, with their inflows now surpassing those from foreign investors.⁽⁵⁾
- ▶ Indian Corporate and Bank balance sheets are healthy⁽⁶⁾. Consumer sentiment has finally surpassed pre covid levels indicating better demand conditions ahead⁽⁷⁾. Residential Real Estate demand has picked up. The Investment Adviser believes the time is now ripe for a private sector investment cycle.
